SADDLE STITCH / WIRE - O

SETTING UP BOOKS FOR PRINTING AT INDIE PRINTING

Basics:

• All files must be CMYK (make sure linked images are cmyk also).
• Processed rich black is 80,70,60,100.
• Regular Black is 0,0,0100 (Make sure small text and line art is set up like this to avoid registration issues.
• All images 300dpi no re-sampling in resolution
• Make sure vital text and art is away from the edge. Also be aware of crossovers and the gutter.
•Coated and uncoated paper available and only semi gloss finish on the ink.

Document Set Up:

• Bleed needs to be 0.125" all around.
• File should come in single consecutive pages not spreads. Use the export to pdf feature.
• Export file with bleeds but no marks. You can set this on the marks and bleed section when exporting...
